SELECTMEN'S REPORT

The Board of Selectmen had a busy 1982. Some of the significant changes that occurred during the year included: implementation of bi-annual tax collection recruitment of a new Chief of Police, negotiation of land sale to Damart and the retirement of Highway Department Alcide Drouin and Chief of Police Al England.

Collection of taxes twice a year has received positive response from most taxpayers. The idea of spreading the tax burden over two payments seems a little easier to take. As a result of the June tax payment we were able to reduce tax anticipation interest charges to nearly \$20,000 less than in 1981. In addition, interest from investment of idle funds increased. Consequently, twice a year collection enabled us to reduce the tax rate by about \$1.00 per \$1,000 of assessed valuation.

This year's town tax rate actually declined about \$.90 per \$1,000 of assessed valuation in 1982. Unfortunately this reduction was more than offset by an increase in the school tax rate.

Alcide Drouin, a dedicated Highway Department employee for 18 years, decided, much to our sorrow, that it was time to retire. "Cid" was one of those quiet unpretentious fellows who always seem to be there when needed. We regretfully bid farewell to Cid and his wife Frieda in June. They now reside in Berlin, NH and hopefully are enjoying their retirement.

Police Chief Albert England retired in June after 10 years of unselfish service to the people of Rollinsford. The affection and respect earned by Chief England was vividly displayed at the recognition dinner held for him in July. The Board sincerely appreciates the contribution Chief England made to the town of Rollinsford and we wish him success in his future endeavor.

After initiating a wide search for a new Chief, with the assistance of the New Hampshire Municipal Association, the Board of Selectmen selected Jon C. Schmitter, former Chief of Police of Northfield, Mass. to replace Chief England. Chief Schmitter brings to Rollinsford an extensive background in police work and administration. He has demonstrated an ability to work well with his men, town officials and the townspeople. We are pleased to have a man of Chief Schmitter's caliber, and hope he and his family will be happy here in Rollinsford.

The 1982 Town Meeting authorized the Selectmen to sell approximately 6,000 sq. ft. of land in front of the hydroelectric plant to the Damart Corporation. Although we had anticipated this to be a simple transaction, the sale involved several sessions with attorneys clarifying the terms of the sale before it was finally sold in November.

The Zoning Ordinance was amended at the 1982 Town Meeting. The major zoning changes included the establishment of the suburban district #2 in which mobile home subdivisions are permitted; the establishment of an occupancy permit requirement, and a revised building permit fee schedule.

Dogs remain a problem in Rollinsford. Not many people take seriously the fact that we have a leash law on the books. The people who claim to love their dogs too much to keep them tied in their own yards, are really the ones who prove that they don't care for their pets and they have no respect for the rest of the people living in Rollinsford. Dog complaints are increasing daily, and even straying cats are getting into the act. One major problem with dog control had been the lack of a dog pound in town. This problem was solved in December when the town contracted with the Granite State Humane Society located at the Strafford County Farm, to hold dogs picked up in Rollinsford. If your dog is picked up and you want him/her back, we remind you it's 10 miles up and 10 miles back, on top of a fine and room and board. Or, if you wait too long your pet could be adopted out or put to sleep. Not a pretty thought, right?

As we look toward the 1983 Town Meeting and School District Meeting, we see important issues facing Rollinsford voters. Perhaps the warrant article to accept the adjusted elderly exemption in Rollinsford will have the most far reaching consequences. A Yes vote on article II will increase elderly exemption from \$5,000 to \$10,000 and lower the eligible age from 68 to

65 years. Furthermore, the exemption would increase to \$15,000 at age 75 and \$20,000 at age 80. In 1982 there were 35 people who qualified for \$178,000 of elderly exemptions. If all elderly persons received an exemption under the adjusted elderly exemption, nearly 100 people would qualify for \$1,250,000 of exemptions. An expansion of this magnitude would increase the Town tax rate by \$2.00 per \$1,000 of assessed valuation. Although there are justifications for giving tax relief to the elderly, it is unfortunate that any tax relief for the elderly must be picked up by the other age groups in Rollinsford.

Our road reconstruction program continues on with Phase V. This year we again request \$30,000 and although no decision has been made yet as to what areas in town will be done, we have cost figures for Locust Street, the end of Indigo Hill Road, and sidewalks from the corner of Front and Main up to Locust Street, Locust Street to Prospect Street, and all of Locust Street. With so many people enjoying walking for health reasons, we think maybe this is the year to redo Main Street sidewalk, and Locust Street for the school kids.

Last, but not least, we're requesting \$6,000 for a Micro computer. With the increased paper-work going through all departments, a computer is a tool that will in the long run save money for the town of Rollinsford. The computer will give us the capability to undertake computer tax billing at a considerable saving to the town. The use of the computer for word processing will enable us to reduce secretarial costs, for routine correspondence, and the preparation of the annual Town Report. A computer will provide us with a valuable tool for maintaining data file, such as, property tax files, list of dog licenses, police records, equipment inventories, insurance records, current land use files, elderly exemptions, veterans' credit files, checklists and water, sewer and cemetery records. In addition it will enable us to undertake computerization of bookkeeping records.

Once again, we take this opportunity to thank all of you who have cooperated with us during 1982 in our endeavor to run this town as economically as possible. We thank our Department Heads, employees, Board and Commission members for a job well done. Without you our job would be impossible.

ACCOUNTANT'S OPINION

Board of Selectmen
Town of Rollinsford
Rollinsford, New Hampshire 03869

I have examined the financial statements of the various funds and groups of accounts of the Town of Rollinsford for the year ended December 31, 1981 listed in the foregoing table of contents. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records as I considered necessary in the circumstances.

The Town of Rollinsford has not maintained a record of its general fixed assets, and accordingly a statement of general fixed assets, required by generally accepted accounting principles, is not included in the financial report.

In my opinion, except that the omission of the financial statements described above results in an incomplete presentation as explained in the preceding paragraph, the combined financial statements referred to above presently fairly the financial position of the various funds and groups of accounts of the Town of Rollinsford at December 31, 1981 and the results of operations of such funds for the year then ended in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

TOWN OF ROLLINSFORD POLICE DEPARTMENT REPORT 1982

The year 1982 brought change to the Rollinsford Police Department, the most significant of which was the medical retirement of the Chief, Albert England. The Town conducted a search and a new chief was selected, Jon Schmitter, as with any administrative change there have been changes within the Police Department. There will doubtlessly be others as I become more familiar with the community. I would like to take this opportunity to thank the members of the Police Department for making the transition as smooth as it has been. I think that this speaks highly of the quality of personnel that the Town of Rollinsford has as Police Officers. I would also like to thank the members of the community for their assistance in making myself and family feel at home.

Among the goals of the department for the next year, is the desire to make the department more responsive to the needs of the community, and to do this as economically as possible. This will be done while maintaining the same high performance level that has been this department's forte in the past.

Below is listed some of the Departments activity for 1982.

ROLLINSFORD FIRE DEPARTMENT - 1982

The Rollinsford Fire Department had another busy year as indicated in the list below.

We continue to train on Sundays and Mondays as training is very vital to our overall operation and we never know the nature of the call until we arrive on the scene. Without continued training we would not be able to handle the problem properly.

Our two EMT's have completed their requirements to stay nationally certified. Five of our men just finished cold weather fire fighting school which was conducted by State instructors.

Seven of our men, during 1982, became certified in C.P.R.

We are fortunate to have the caliber of people who are willing to give of their time to become better qualified firefighters.

Due to the ages of our equipment (trucks), I am anticipating some major repairs during 1983. Hopefully we can keep the cost down by using priorities.

I would like to thank the officers and men of the Fire Department for the professional manner in which they conducted themselves during 1982.

The following is a breakdown of the numbers and kinds of responses made by the Rollinsford Fire Department in 1982:

Structural	2	Public Assist (lock out)	1
Woods/brush	11	R.R. Ties	1
Grass	4	Chemical spill	1
Chimney	8	Medical aid	1
Car accident	7	Electrical	1
Car fire	4	Dryer	1

Smoke investigation	5	Mutual Aid to:	
False Alarm	4	South Berwick	2

		Berwick	1
		Somersworth	1

1982 ROLLINSFORD PLANNING BOARD REPORT

During 1982, four subdivision proposals were processed and approved by the Rollinsford Planning Board; a fifth proposal was presented for preliminary consultation with the Board, and final disposition is still pending. In addition, the Zoning Ordinance and the Subdivision Rules and Regulation manuals were revised, retyped and republished to incorporate revisions approved in 1975, 1978 and 1982.

Board changes during 1982 include the reappointment of Robert Cullen and Robert Smith for a second five year term. The Board wishes to add its appreciation to that of the community for the service given by Mr. Cullen and Mr. Smith during their recently completed terms.

The Board of Trustees would like to thank all the wonderful people who are helping to make the Library a reality. Through the generous donations and dedicated work of the Friends of the Rollinsford Library, Jaycee Women, Clover Club 4-H, and our kind patron from Portsmouth, we have made significant progress in our building fund. With services pledged by architect Gary Meehan and Security Fence, our building plans are coming alive. Recently the reference holdings were expanded to include three sets of Encyclopedias donated by the So. Berwick Public Library. The many thoughtful donations of books, magazines and historical publications continue enriching the resources which will one day serve the Townspeople of Rollinsford.

Our Primary goal this year is to secure a solid foundation under our library building. Until such time as our building is ready for occupancy, we would entertain any suggestions regarding the opening of a reading room in a public or private location in town.

Our enthusiasm is strengthened through the confirmation of our first Foundation grant. The Eva Gebhard-Gourgaud Foundation has awarded \$500 to our building fund. We are continuing with additional grant proposals to many other Foundations and we will be contacting local businesses for financial and/or service-in-kind support. The Friends will be sponsoring a pot luck supper in mid March and additional up coming community events will include another famous Spaghetti Supper and the Annual Yard Sale. We hope you'll join us.

In 1982 the Commission had gates put up on both ends of the Scotland Road; they were built and put up by Mick Construction Co. This was done to curb vandalism, stealing of cordwood, and to reduce fire hazzard.

In conjunction with the Road and Gun Club, and the cleaning up of the riverfront area on Foundry Road, the Commission had an asphalt boat ramp installed. The paving was done by B & M paving of Dover.

Members of the Commission planted 500 Red Pine seedlings, and a selection of wildlife-attracting plants in the old dump area.

For the second year, the Commission sponsored a local child for a week at New Hamshire 4-H Camp. A written essay contest was held to make the choice. This year the winner was from the local Girl Scout Troop.

Other subjects considered by the Commission have included further planting of shade trees around town. Repair of the Scotland road and fish stocking in the Salmon Falls River were also considered.

We have examined the comparative financial statements of the Salmon Falls Water District of the Town of Rollinsford, New Hampshire, as of and for the years ended December 31, 1981 and 1980, as listed in the Table of Contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Water District had not maintained a record of its general fixed assets for prior years, as a result, exception is taken by the auditor as to the balances listed on the balance sheet.

ARTICLE 8. To see if the district will authorize the school board to make application for and to receive in the name of the district such advances, grants-in-aid, or other funds for educational purposes as may now or hereafter be forthcoming from the United States Government or any department or agency thereof.

Jay Whitehouse moved that the district raise and appropriate the sum of \$13,400 to provide transportation for students attending St. Thomas Aquinas High School in Dover, seconded by William West. At this point, Mr. Caouette relinquished the chair and asked Albert Labrecque,

Assistant Moderator, to assume the Moderator's responsibilities.

General discussion followed. Jay Whitehouse, in response to Clem Michaud's question of what the state mandates in regard to transportation of students, asked that John Powers, Superintendent of Schools, be permitted to speak. Edmund Jansen moved that the Superintendent be permitted to address the question, seconded by Clem Michaud. Motion carried. Mr. Powers read from *New Hampshire Revised Statutes Annotated Relating to Public Schools* 189:7

The district shall furnish transportation as provided in RSA 189:6 to all pupils under the age of 14 years in grades above the eighth. In districts not maintaining a high school, in which the school board has neglected or refused to furnish further instruction in the schools of the district as provided in RSA 194:29, the district shall furnish to such pupils reasonable transportation to an approved high school.

After further discussion, Denise Whitehouse moved to call the question, Lester Eldridge seconded her motion. Motion carried. Original motion to accept Article 9 as read carried.

Mr. Labrecque relinquished the chair back to Mr. Caouette.

ARTICLE 10. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Jay Whitehouse moved that the district raise and appropriate the sum of \$767,799 for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation such sums as are estimated to be received from the state foundation aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town, seconded by Corydon Curtis. Robert Weston challenged the motion, stating that the town Budget Committee had proposed a budget in the amount of \$748,399 and, with the now accepted Article 9, totalled \$761,799, and that this amount should be on the floor for consideration. Mr. Weston moved that a fifteen minute recess be called to enable the Moderator to contact legal counseling, to establish which proposal should be on the floor, Mr. Labrecque seconded. Motion carried. The meeting was called to order at the conclusion of the fifteen minute recess. The chair, because no legal counselor could be contacted, ruled that the amount of \$761,799 should be the amount on the floor for consideration.

Jay Whitehouse moved that the amount of \$761,799 be increased by \$6,000, seconded by Gail West. A voice vote did not show a majority either in favor or opposed. Gail West moved that the question be decided by a show of hands, Patricia Young seconded. Motion carried. Results of the vote by a show of hands were:

Ayes — 35

Nays — 23

ACCOUNTANTS AND AUDITORS REPORT

Killion, Plodzik & Sanderson

To the Members of the School Board, Rollinsford School District, Somersworth, New Hampshire

We have examined the combined financial statements and the combining fund and account group financial statements of the Rollinsford School District as of and for the fiscal year ended June 30, 1982, as listed in the foregoing table of contents. Our examination was made in accordance with generally accepted auditing standards and accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 1B, the combined financial statements referred to above do not include financial statements of the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation as explained in the above paragraph, the combined financial

statements and the combining fund and account group financial statements referred to above present fairly the financial position of the Rollinsford School District at June 30, 1982, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole and on the combining fund and account group financial statements. The accompanying financial information listed as supplemental schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the combined financial statements of the Rollinsford School District. The information has been subjected to the auditing procedures applied in the examination of the combined and combining fund financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

TRANSMITTAL AND COMMENTARY LETTER

Members of the Board:

We have examined the financial statement of the various funds and account groups of the Rollinsford School District for the year ended June 30, 1981 and have issued our report thereon, dated November 10, 1981. As part of our examination we reviewed and tested the District's system of internal accounting controls to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards, the purpose of such evaluation is to establish a basis of reliance thereon to determine the nature, timing and extent of such auditing procedures that are necessary for expressing an opinion on the financial statements. Such study and evaluation disclosed the following conditions that we believe to be material weaknesses.

Food Service Fund

During 1980-81 the School Lunch Director had custody of School Lunch Funds. The Treasurer was not involved with disbursing cash and the School Board did not approve manifests or invoices. It was noted, however, that the custody of School Lunch Funds are now in the hands of the District Treasurer, and disbursements are approved by the School Board.

Payroll Procedures

Currently all payroll accounting procedures are administered by one individual, which we believe to be a serious weakness in internal accounting control.

We recommend that after signing, the Treasurer should submit all checks to an individual other than the one preparing the payroll register, for distribution.

Other

Other administrative and operational matters not directly related to internal control are detailed below. These observations and recommendations are not the result of a special study.

Fixed Asset Records

The District does not maintain accounting records for its fixed assets, as is the case with many New Hampshire School District's. Fixed asset records are needed for control of the assets as well as the insurance program and long range planning. While we recognize that the costs of

any control system should not outweigh the benefits and that the establishment of fixed asset accounting records is a major undertaking we believe that the District should give development of these records a high priority. We offer the following program for your consideration.

Adoption of a formal capitalization policy by the School Board.

Take an inventory of existing fixed assets and maintain records of identified items at a central location under control of a responsible official.

Establish fixed asset accounting records for all new acquisitions and a certain percentile of existing items annually.

Establish a program for periodically verifying existence of items in the fixed asset accounting records or on the inventory.

Adopt formal procedures to delete items from the records.

Fidelity Bonding

At present, only the District Treasurer is covered by fidelity bonding. All personnel having custody of district and in particular school lunch funds should be adequately covered for the District's protection.

Investment of Idle Funds

It was noted that the General Fund's non-interest bearing checking account contained large balances during the year. It is suggested that the officials of the District implement steps to maximize investment income on idle funds.

Objectives of Internal Control

The objective of internal control is to provide reasonable but not absolute, assurance as to safeguarding of assets against loss from unauthorized use or disposition, and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the evaluation of these factors necessarily requires estimates and judgements by management.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgement, carelessness or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented by collusion. Similarly, control procedures can be circumvented intentionally by management with respect to the estimates and judgments required in the preparation of financial statements. Further projection of any evaluation of internal accounting control to future periods is subject to the risk that procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

Our study and evaluation of the District's system of internal accounting control for the year ended June 30, 1981 which was set forth in the first paragraph, would not necessarily disclose all weaknesses in the system.

Publication Requirement

The provisions of R.S.A. 71-A:21 require that only this letter shall be published in the next annual report of the School District.

However, we suggest that you consider the publication of the entire report which includes auditor's opinion, financial statements and notes to financial statements. No portion of either the auditor's opinion, financial statements or notes to financial statements may be published separately.

We extend our thanks to the officials and employees of Rollinsford School District for their assistance during the course of our audit.

ARTICLE II

Are you in favor of the adoption of Amendments Nos. 1, 2 and 3 to the Town Zoning Ordinance, as proposed by the Planning Board?

These amendments, adopted collectively, will bring the Town Ordinance into compliance with the Senate Bill 279 which was passed into law August 22, 1981. This bill directs each N.H. community to incorporate acceptable regulations that will permit the placement of "manufactured housing" (sectional houses, mobile homes) within some part of their community. Rollinsford's Ordinance permits sectional homes in three (3) districts, and currently permits mobile homes in Mobile Home Parks only. The new law mandates that individually owned lots must also be possible for mobile homes in at least some designated portion of Town. This last requirement was not satisfied by the existing Ordinance. The proposed permitted use for Mobile Homes Subdivision will satisfy this last requirement.

Elected by referendum ballot. Results: 162 - yes 66 - no.
Results: Yes to Article II.

ARTICLE III

Are you in favor of the adoption of Amendment No. 4 to the Town Zoning Ordinance, as proposed by the Planning Board?

This amendment provides updated modifications to some of the Special Provisions for Mobile Home Parks. These changes are consistent with the substantially larger mobile homes available on the market today and local practices in neighboring communities.

Elected by referendum ballot. Results: yes - 174 no - 54.
Yes to Article III.

ARTICLE IV

Are you in favor of adoption of Amendment No. 5 to the Town Zoning Ordinance, as proposed by the Planning Board?

This amendment restores the paragraph wording to the pre-1978 format for, the rule guiding modification proposals against existing nonconforming uses. The emphasis on variance processing as opposed to special exception processing was seriously advised by Town Counsel so as to minimize future Town problems.

Decided by referendum ballot. Results: yes - 160 no - 53.
Yes to Article IV.

ARTICLE V

Are you in favor of adoption of Amendment No. 6 to the Town Zoning Ordinance, as proposed by the Planning Board?

This amendment corrects and clarifies footnotes relating to lot size restrictions according to the availability of municipal sewerage and water.

Decided on by referendum ballot. Results: yes - 176 no - 43.
Yes to Article V.

ARTICLE VI

Are you in favor of the adoption of Amendment No. 7 to the Town Zoning Ordinance, as proposed by the Planning Board?

This amendment provides a much needed vehicle for use by the Selectmen (who are charged to enforce the Ordinance) for assuring that construction plans, as approved by the granting of a Building Permit can be verified prior to occupancy when it is so related. This would correct problems encountered in the past by utilizing a procedure used in most developing com-

munities - an Occupancy Permit.

Decided upon by referendum ballot. Results: yes - 137 no - 83
Yes to Article VI.

ARTICLE VII

Are you in favor of the adoption of Amendment No. 8 to the Town Zoning Ordinance as proposed by the Planning Board?

This amendment establishes a “free schedule” associated with Permits granted for various types of construction activities. These fees are set to commensurate with Town Expenses associated with processing followup actions to the building activity, and is typical to that set in local communities.

Decided upon by referendum ballot. Results: yes - 144 no - 75
Yes to Article VII

ARTICLE XV

To see if the Town will vote to allow a discount of 4% on a portion of the 1982 tax levy, except resident taxes, if paid by June 1, 1982. The discount will not be applicable to the portion of the 1982 tax levy that will be billed on May 1, 1982 and become due on June 1, 1982.

Motion made by Lester Eldridge, seconded by Mr. Michaud, to accept the article as read. At this time Edmund Jansen explained the article with the following example: If a property tax bill for the year 1982 is in the total amount of \$1,000., on June 1, 1982 this person would receive a

tax bill for one half of his 1982 taxes in the amount of \$500. This \$500 amount would be due on July 1, 1982. For paying this \$500 amount on time, no discount would be given; however, if at this time the taxpayer would pay the entire \$1000 or pay a figure over and above the \$500 due, he then would receive a discount of 4% only on the portion of money that he paid over and above the \$500 that was due. The discount is on the portion due in December. (Please note a correction in the Article: Billing will be on June 1st, taxes will be due on July 1)
